

Customer Journey Map

Date	15 July 2026
Team ID	SWTID-2026-7750
Project Name	Credit Card Approval Prediction System
Maximum Marks	2 Marks

Customer Journey Map

Phase of Journey	Stage 1: Application Submission	Stage 2: Application Evaluation	Stage 3: Approval Prediction
Actions (What does the customer do?)	Fills in personal, employment and financial details.	Submits the application and waits for verification.	Views the approval/rejection result and confidence score.
Touchpoint (What part of the service do they interact with?)	Credit Card Application Form (Flask Web Interface).	ML Prediction Engine and Data Processing Module.	Result Page displaying prediction and confidence.
Customer Thought (What is the customer thinking?)	"Will I be eligible for a credit card?"	"I hope my application meets the bank's requirements."	"Was my application approved? How confident is the prediction?"
Customer Feeling (What is the customer feeling?)	Hopeful but uncertain.	Anxious while waiting for the decision.	Relieved if approved or disappointed if rejected.
Process Ownership (Who is in the lead on this?)	Customer	Application Processing System (Machine Learning Model)	Bank Decision Support System / Flask Application

Opportunities (How can we improve this stage?)	Provide clear instructions and input validation.	Improve prediction accuracy using better features and models.	Offer personalized suggestions to improve future approval chances.
