

Communication

Date	15 July 2026
Team ID	SWTID-2026-7750
Project Name	Credit Card Approval Prediction System
Maximum Marks	1 Marks

Communication Plan:

Effective communication is essential for a successful project demonstration. This document outlines the communication strategy used within the team and with stakeholders throughout the project lifecycle, including how updates, issues, and feedback were managed.

S.No	Communication Type	Frequency	Channel / Tool	Participants	Purpose
1	Team Standup	Daily	WhatsApp / Google Meet	All Team Members	Discuss daily tasks and project progress.
2	Progress Update	Weekly	Google Meet / College Lab	All Team Members & Guide	Review completed work and plan upcoming tasks.
3	Issue / Bug Discussion	As Needed	WhatsApp / VS Code	Team Members	Resolve coding errors, debugging, and technical issues.
4	Project Review	Bi-Weekly	Guide Meeting	Project Guide & Team	Receive feedback and improve project implementation.
5	GitHub Repository Update	Weekly	GitHub	All Team Members	Upload source code and maintain version control.
6	Final Demo Preparation	Once	College Lab / Google Meet	Entire Team	Practice project presentation and verify application functionality.

Communication Challenges & Resolutions:

S.No	Challenge Faced	Resolution / Action Taken
1	Difficulty integrating the Machine Learning model with the Flask application.	Team members discussed the issue together, referred to documentation, and successfully integrated the model.
2	GitHub upload issues due to large model files and dataset size.	The model was optimized, unnecessary large files were excluded from the repository, and deployment files were updated.
3	Deployment issues while hosting the application on Render.	The team identified dependency and configuration problems, updated the requirements file, corrected the start command, and successfully deployed the application.
