

Project Demo Planning

Date	15 July 2026
Team ID	SWTID-2026-7750
Project Name	Credit Card Approval Prediction System
Maximum Marks	1 Marks

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction & Problem Statement	Introduce the project, explain the problem statement, objectives, and project motivation.	2	Nageswari Kondru
2	Project Architecture & Workflow	Explain the system architecture, dataset, preprocessing, feature engineering, and machine learning workflow.	3	Maddula Manasa
3	Model Training & Evaluation	Demonstrate the machine learning models used, model comparison, evaluation metrics, and final model selection.	3	Goriparthi Naga Harini
4	Live Application Demonstration	Show the Flask web application, enter applicant details, perform prediction, and display the approval result with confidence score.	4	Nageswari Kondru
5	Deployment & GitHub	Explain the GitHub repository, Render deployment, project structure,	2	Maddula Manasa

		and execution steps.		
6	Conclusion & Future Scope	Summarize the project, discuss benefits, future improvements, and answer audience questions.	1	Goriparthi Naga Harini

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Introduce the team, explain the project objective and the need for automating credit card approval prediction.
2	Solution Overview	Explain the dataset, preprocessing, feature engineering, machine learning models, and overall system architecture.
3	Live Feature Demonstration	Demonstrate the Flask application by entering applicant details and displaying the prediction result with confidence score.
4	Q&A Session	Answer questions related to the implementation, machine learning model, deployment, and future scope.
